### LADDERS Aluminium Heavy Duty Extension Ladder

Extension ladders come with or without extending ropes. If the ladder is without ropes, lay it flat on the floor & pull out sections to the required height before raising it to the working position. With ropes, keep the ladder vertical & extend using the ropes. With the heavier ladders two or three people may be required to carry out this procedure. Look out for overhead cables & other obstructions. The final position of the base should be one out from the wall for every four of height. Ensure that the extensions overlap by three rungs.

**WARNING** Using any tool can be dangerous. Care and Concentration are required in their use. The following symbols denote items of personal protective equipment that are recommended for particular tools. These items are in addition to normal work wear which should be chosen to suit the work being done and the particular site conditions.

- Goggles
- Face Mask
- Ear Plugs
- Gloves
- RCD Circuit Breaker
- Welding Mask
- Helmet
- Chain Saw Safety Kit

Hand held tools which vibrate when in use have acceleration figures quoted. The figures are in metres per second per second and are denoted by the symbol.

The items of equipment listed in this price list require varying degrees of skill in their use. Items tinted in pink may require extensive training by a suitably qualified trainer before a reasonable level of proficiency in their use is attained. Using any equipment without first attaining the required level of skill can be dangerous for you and the public at large. If you are not suitably qualified or do not have the necessary experience to use an item of equipment, do not hire it and seek the advice of a qualified professional.

### CONDITIONS OF HIRE

1. Equipment hire is subject to the conditions on our hire contract. Those conditions are established by our trading organisation: THE HIRE ASSOCIATION EUROPE. It is in your own interest to insure that mechanical equipment is started up and in working order in your presence before taking delivery.
2. Hire rates are those shown in our current Price List which is subject to change without notice. All rates are subject to VAT at the appropriate rate. Hire rates do not include cleaning charges. A charge will be made for equipment returned in a dirty condition.
3. HIRE PERIOD DEFINITIONS. One day constitutes 24 hours. Extra additional days constitutes 24 hours. Weekend constitutes from 3pm Friday to 10am Monday. One week constitutes 7 days. Additional days after one week charged at 1/7th weekly rate.
4. No deposit is required on hired items but proof of identity is required from all hirers. Two positive forms of identification are required, one of which must state the hirer's address.
5. A credit account can be arranged for companies wishing to hire on a regular basis.
6. Our service vehicles are available to deliver equipment and to collect after use. Delivery charges vary with distance. 24 hours notice is required for collection. Urgent deliveries can usually be made at short notice in normal working hours. It is not possible to give exact times for delivery or collection, but we will endeavour to collect in the morning or afternoon, whichever is preferred on the day ordered by you.
7. On return of equipment it is essential that the customer receives an 'OFF HIRE' number, as this is the only conclusive proof that we have of returned equipment or equipment to be collected. This is especially important for telephone 'OFF HIRES'.
